Ref: DSD Construction Ltd – VIATEX Approval

24th February 2010

Dear Sir,

On the 3rd of September 2009 a site audit was performed on the surfacing crew led by Mr. Darren Nugent.

The purpose of the audit was to assess the competence of the surfacing crew to install the CEMEX UK Materials Limited, Viatex - Thin Surfacing System. The audit was performed against a BBA agreed, Installation Method Statement in accordance with Clause 942 of Vol. 1 of the Specification of Highway Works.

The surfacing operation was carried out in accordance with the requirements of the Installation method statement. No observations or non-conformities were recorded. The crew demonstrated considerable competence and understanding of thin surfacing materials and their installation.

Given the finding of the audit I recommend the above surfacing crew be certified as an approved installer of the CEMEX UK Materials Limited, Viatex - Thin Surfacing System. I have therefore
